DETAILED ACTION

Claim Rejections - 35 USC § 102

1. Claims 1-3, 5-10, and 12-15 are provisionally rejected under 35 U.S.C. 102(e) as being anticipated by copending Application No. 09/454,988 which has two common inventors with the instant application.

Based upon the earlier effective U.S. filing date of the copending application, it would constitute prior art under 35 U.S.C. 102(e), if published under 35 U.S.C. 122(b) or patented. This provisional rejection under 35 U.S.C. 102(e) is based upon a presumption of future publication or patenting of the copending application. Both applications disclose inventions with the same elements in the claims and specification. The FIELD OF THE INVENTION, DESCRIPTION OF RELATED ART, and SUMMARY OF THE INVENTION on Pages 2-16 of Application No. 09/454,988 are similar and directly relevant to corresponding sections of the specification in the instant application. The first embodiment as depicted in FIGS. 1-6 and the second embodiment as depicted in FIGS. 7-13 anticipate the claims in the instant application. The second embodiment discloses an invention identical to that in the instant application. Additionally, FIGS. 8-13 of Application No. 09/454,988 show the invention of the instant application.

This provisional rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the copending application was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

Art Unit: 1743

This rejection may not be overcome by the filing of a terminal disclaimer. See *In re Bartfeld*, 925 F.2d 1450, 17 USPQ2d 1885 (Fed. Cir. 1991).

Response to Amendment

Claiming the instant application as a continuation-in-part of and claims priority from application number 09/454,988 does not overcome the provisional rejection of claims 1-15 under 35 U.S.C 102(e). The provisional rejection under 102(e) may be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the copending application was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

Conclusion

2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
